Dear Mr Henty

**Electricity Distribution – Service Quality Incentive Scheme Draft Decision**

Thank you for the opportunity to comment on the draft decision.

While International Power is principally active in the southern states, where it holds generation, and therefore experiences little direct effect from this determination, we are generally supportive of approaches designed to have wires businesses required to perform in a manner that supports the market. This proposal is a step in that direction, and whatever its final form, is welcomed.

Given the MCE directions toward a cohesive regulation environment across the whole market, it is IPR's view that the approaches in the different jurisdictions should be aligned; however, we recognise that this may require a 'lowest common denominator' outcome.

Incidentally, we are not aware of the addressee nominated in your letter. The Regional managing Director is Mr Tony Concannon, and the Commercial Director, with responsibility for market-related issues, is the undersigned. Both are located at the address you currently have.

Yours sincerely

Stephen Orr  
COMMERCIAL DIRECTOR
