1. The total network charge for each billing period will be calculated using the daily charges. Each days charge will comprise:
 - a) a base charge; plus
 - b) a fixed capacity charge applied only to Network User's with assigned metering capacity in excess of 300 MJ MHQ; plus
 - c) a charge for the Quantity of Gas delivered (or estimated to have been delivered) during that day to or for the account of the Network User.
2. The charge for the Quantity of Gas delivered (or estimated to have been delivered) to or for the account of the Network User will be calculated at the rates shown in the above table. The daily quantities will be determined based on the appropriate Meter Reading and converted to an average daily figure based on the number of days in the metering period.
3. Total charges for each billing period will be rounded to the nearest cent.
4. The calculation of each Network User's metering capacity will be determined by Allgas based on data held by Allgas including the customer's meter type, pressure factor and consumption data.
5. The QCA, Distribution Authority levies, and licence and audit fees from the *Petroleum and Gas (Production and Safety) Regulation 2004* are charged based on total consumption.

Notes

1. For demand metered customers, the daily demand charge refers to the customer's MHQ for April to March in the 12 months previous. Similarly, the MDQ charges refer to the customer's MDQ for April to March in the 12 months previous.
2. For customers without demand metering, the MHQ will be dependent on their metering capacity and be calculated by Allgas using the customer's meter types, pressure factor, diversity and consumption data. In this instance, the MDQ will be calculated by Allgas based on the customer's consumption data, days of operation and seasonality.
3. The customers' MDQ and MHQ readings remain constant during the financial year except in the case of overruns (see Section 3 of Terms and Conditions for details).
4. The Fees on consumption include the QCA, Distribution Authority levies, and licence and audit fees from the *Petroleum and Gas (Production and Safety) Regulation 2004* are charged based on total consumption and a fee for costs of operating the Queensland Gas Market for contestable customers only.
