

I own and operate from our beachfront office in mission Beach, being a micro business a rise of 10% is a wage that I will have to cut out as our bill is over \$1000 for a three bedroom office with no air con. This is along with the \$6000 per year and over \$30,000 worth of insurance paid. This is just another feather in the cap of destroying the smaller businesses in Australia and more importantly regional Queensland!
