Dear Mr Carter

Regulatory pre-approval for Coal Master Plan 2009 capacity expansion projects

The Authority today approved QR Network's application for regulatory pre-approval of the scope of four master planning projects detailed in QR Network's Coal Master Plan 2009 as set out in the attached table (see **Attachment 1**).

In making this decision, the Authority accepted that QR Network had demonstrated that at least 60 per cent of customers, by volume, did not oppose the scope of the works and that the customer vote process was conducted in accordance with clause 2.2(a)(ii) in Schedule FB of QR Network's approved access undertaking.

If you have further questions on this matter, please contact Paul Bilyk on (07) 3222 0506.

Yours sincerely

EJ Hall
Chief Executive
