Dear Mr Windle

Electric energy charge (EC) for 2026-27

On 21 May 2026, Aurizon Network sought the QCA's approval to update the EC tariff for 202-27 so that it better reflects Aurizon Network's forecast electric energy costs and volumes and takes account of a cumulative over-recovery from electric energy charges from the prior year.

On 10 June 2026, the QCA approved the new EC tariff (\$1.18 per egtk'000) in accordance with Schedule F, clause 2.2 (a) of the 2017 access undertaking. The QCA considers it reasonable that Aurizon Network reflects its latest forecast energy costs in the corresponding reference tariff and has verified these have been incorporated accurately.

We will publish this letter and Aurizon Network's proposal on our website for stakeholders' information.

Yours sincerely

Ann Jones
Director Business Performance
