Brisbane, 4001.

To Whom it may concern,
I believe the water supply was upgraded when the Queensland Cement
East Coast Mine was opened and we benefited. Why is it being taken away
by the Government through unaffordable and inflated prices.
We simply can't afford water at this price, because this community is
full of pensioners and low-income earners with a small percentage
renting.

Looking at it at a landlord point of view, it is devaluing land so
the cost of this rise, has to be past on to the tenant either in higher
rents or paying the water costs for that property himself.

Why are we being singled out by this stupidity by the
Queensland Competition Authority.

We will not tolerate being treated as second class citizens.
We deserve better.

Yours Truly

A. Bayne
