 - (C) is approved by the QCA.
- (d) Where the QCA or an Access Seeker or Access Holder is reasonably of the opinion that Line Diagrams prepared and published in accordance with Clause 3.6(b):

 - (2) Aurizon Network has failed to comply with Clause 3.6(e)(2).

3.7 Transfer of rail transport infrastructure from Aurizon Party

- (b) In considering a request made in accordance with Clause 3.7(a), Aurizon Network must obtain ownership of the relevant rail transport infrastructure and amend the Line Diagrams accordingly if, in Aurizon Network's reasonable opinion, this is appropriate having regard to the following principles:
 - (1) subject to Clauses 3.7(b)(4) and 3.7(b)(5), the ownership of rail transport infrastructure (as defined under the TIA), as between Aurizon Network and other Aurizon Parties, should be allocated in a way that enables Aurizon Network to operate as a stand alone provider of the Below Rail Services, except in relation to stations and platforms;
 - (2) the existing market shares of Related Operators should not be a factor in the allocation of ownership of rail transport infrastructure (as defined under the TIA) between Aurizon Network and other Aurizon Parties;
 - (3) subject to Clauses 3.7(b)(4) and 3.7(b)(5), ownership of rail transport infrastructure (as defined under the TIA), as between Aurizon Network and other Aurizon Parties, should be allocated in a way that reasonably allows for Access Seekers to undertake activities associated with Access Rights;

- (4) any Private Infrastructure should connect directly to Rail Infrastructure, except where the agreement between an Aurizon Party and the Private Infrastructure manager explicitly accepts that the Private Infrastructure connects to track managed by the Aurizon Party; and
 - (5) any facility that is owned or leased by a Third Party and is accessible from track managed by an Aurizon Party (referred to as a "Private Facility") should be accessible from Rail Infrastructure, except where the agreement between the Aurizon Party and the Private Facility manager explicitly accepts that the Private Facility is accessible from track managed by the Aurizon Party.
- (c) Aurizon Network is not required to obtain ownership of the relevant rail transport infrastructure and amend the Line Diagrams accordingly unless:
- (1) if ownership of the rail transport infrastructure was with Aurizon Network, the use of the rail transport infrastructure would form part of the Declared Service;
 - (2) if the rail transport infrastructure is not required to operate a Train Service directly between an origin and a destination, access to the rail transport infrastructure satisfies the criteria in section 76(2) of the Act;
 - (3) if the rail transport infrastructure relates to the Central Queensland Coal Network, the value of the rail transport infrastructure is included in the Regulatory Asset Base; and
 - (4) if the rail transport infrastructure relates to the Central Queensland Coal Network, it is included in a Coal System and the System Forecasts, System Allowable Revenue, Reference Tariffs and any other relevant matters for the Coal System are reviewed and amended to take account of the rail transport infrastructure (including taking into account any Incremental Costs associated with the rail transport infrastructure);
- (d) If an Access Seeker disagrees with the results of Aurizon Network's consideration of its request under Clause 3.7(a), it may refer the issue to the Dispute resolution process set out in Clause 10.1.
