

19-5-10

Old Competition Authority

At a meeting held on the 10-5-10 at the Old Bundy Hotel Quay St Bundaberg. I raised the concern of mine and other growers of the unfair water allocation to growers South of the Burnett river compared to North side growers.

09-010 water year we were given an allocation of 50% while the north side was given 100%.

The pricing system is in two parts.

Part A \$ 41.60 per ML paid Quarterly on total allocation

Part B \$ 29.72 " " paid Quarterly on water used

Sur Water made available water from Paradise Dam on two occasions to growers, only by application

A further charge of \$30 per ML was made and had to be used within a certain number of days. This extra charge plus a number of days to use is very unfair.

Sickness, breakdowns, or rain etc could mean that a grower be unable to use all of his requested increase.

Thanks for asking me to put this submission in writing
