Friday, 30th April 2010

Mr Mark O'Sullivan
Queensland Competition Authority
GPO Box 2257
BRISBANE QLD 4001

Dear Mark

This will serve as confirmation of our telephone call this afternoon during which we discussed the following issues:

1. That I had just received your correspondence of 20th April regarding the meeting held two days ago on the 28th at the Emerald Town Hall. I have asked that in future, as I am domiciled interstate that I be given 4-5 weeks notice of an upcoming meeting. The supply, cost and quality of water is very important to me. As I have large vineyard holdings all over Australia I know the true value of water and therefore like to be fully informed as to what's occurring on any of the properties in which I have an interest.
2. As you advised I will have a look at the website and read about the proceedings at the meeting.
3. I also brought to your attention the fact that we have had some water quality problems over the past eighteen months or so, this issue of water quality is important as an irrigator and we must know before water quality deteriorates so that damage be it considerable or not is not done to our irrigated crops. I advised you that I had not had any water tests done but we did suffer badly on a small area that we irrigated as a result of we think salinity.
4. I look forward to keeping in contact with you and meeting up with you at upcoming meetings in due course.

With kindest regards

Yours sincerely

BB Brian McGuigan AM
