### **Aurizon Network 2025 UT5 DAAU**

22 December 2025

Dear Charles,

I refer to the draft amending access undertaking submitted to the Queensland Competition Authority (**QCA**) by Aurizon Network Pty Ltd (**Aurizon Network**) on 22 December 2025 (**2025 UT5 DAAU**).

The purpose of this letter is to confirm to the QCA that Aurizon Operations Limited (**AO**) supports the content and effect of the 2025 UT5 DAAU.

AO reserves the right to make submissions to the QCA on the proposed Take or Pay arrangements in the 2025 UT5 DAAU in response to any access seekers, access holders, train operators or their customers who reserve their rights on the proposed Take or Pay arrangements, and who may provide submissions to the QCA which are inconsistent with or contrary to the proposed Take or Pay arrangements.

AO is satisfied that the 2025 UT5 DAAU contains a significant number of increased and material benefits for access seekers, access holders and their customers and that those benefits justify the financial outcomes the 2025 UT5 DAAU secures for Aurizon Network.

For these reasons, AO supports the QCA's approval of the 2025 UT5 DAAU.

Yours sincerely,

Ed McKeiver  
Group Executive Coal  
Aurizon Operations Limited
